Notes

How are YOU GOING TO EARN IT?

Brainstorm the ways you could earn extra money.

Circle the 5 ways that sound the easiest and quickest. Remember that 75% of extra money earned goes to your vacation, with the other 25% going to debt and savings. Keep up to 20% of any money saved under budget. Hold money earned in a separate account from your regular banking. Ally and Capital One 360 are great no-fee online banks to hold money at but you'll need to deposit cash into your local branch and transfer it over.
